LEVEL 2

1. The layout of the premises presented in the plan, including furniture, equipment, and sanitary fixtures, is for illustrative purposes only and serves as a visual representation. The layout and furnishings do not constitute a commercial offer or contractual commitment.
2. The areas are indicated in accordance with the PN ISO 9836:1997 standard based on the construction project. During the construction process, minor differences in dimensions, the location of sanitary fittings, and installation points may occur compared to what is presented in the layout. These differences are due to the specific nature of construction work.
3. The measurements were taken in the light of raw walls, and after plastering, the dimensions may change.
